TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. Minimum Dual Spacing calculated without chains. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Two-layer tread construction combines high mileage performance in the cap compound with significant rolling resistance improvements in the base compound.

Narrowed groove widths result in increased pattern volume which improves wear resistance to guarantee high mileage performance.

Pocket sipe technology with full-depth sipes to enhance water displacement and improve wet performance over the life of the tire.

Applications: Long haul/Regional over the highway all-position use.
