

MICHELIN® XTA®2 ENERGY TIRE

LINE HAUL APPLICATIONS

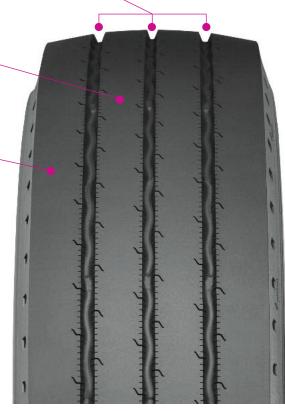

Fuel-efficient⁽¹⁾, small diameter trailer tire that helps deliver long, even tread wear in high cube in line haul applications.

> See-through circumferential grooves promote efficient water evacuation for good wet braking and traction throughout the life of the tire.

Improved retreadability

from a stronger, more durable crown package (compared to the MICHELIN® Energy XTA®).

Advanced technology compounds formulated to help provide low rolling resistance and cool operating temperatures.

Size	Load Range	Catalog Number	Tread Depth	Max. Speed (*)	Loaded Radius		Overall Diameter		Overall Width (‡)		Approved Wheels (Measuring wheel	Min. Dual Spacing (‡)		Revs Per Mile	Max. Load and Pressure Single			Max. Load and Pressure Dual

⁽¹⁾ Based on industry standard rolling resistance testing of comparable tires or retreads. Actual results may vary, and may be impacted by many factors, to include road conditions, weather and environment,

^(*) Exceeding the lawful speed limit is neither recommended nor endorsed.

⁽⁷⁾ Exceeding the lawful speed until 15 inch (2.5 mm) for each 1/4 inch change in wheel width. Minimum dual spacing should be adjusted accordingly.

MICHELIN® tires and tubes are subject to a continuous development program. Michelin North America, Inc. reserves the right to change product specifications at any time without notice or obligations. Please consult wheel manufacturer's load and inflation limits. Never exceed wheel manufacturer's limits without permission of component manufacturer.
